About Us

The Verona Area Educational Foundation, celebrating its 25th year in 2017, is a private nonprofit organization dedicated to supporting teachers and students of the Verona Area School District to design and implement unique and innovative educational programs and projects. To date, the organization has provided more than \$100,000 in funds for a wide variety of projects at area schools.

The banner project and walking tour were produced with support from these local businesses:

Hughes Flooring

JSD Professional Services, Inc.

• Engineers • Surveyors • Planners

The Banner Art Project was coordinated by the Verona Area Education Foundation in coordination with the City of Verona and the Verona Area School District. The project recognizes the artistic talent of district students and showcases their favorite aspects of Verona and the Hometown USA brand. We hope you enjoy meeting the artists and learning about the inspiration behind their works.
