1. **Discussion and Possible Action Re: Required stop at Enterprise Drive and Llanos Street**

On September 25, 2023, the Common Council approved the installation of a stop sign at the intersection of Enterprise Drive and Llanos Street. The stop sign has not yet been installed. The City has received complaints from residents living near the intersection due to the proximity of the proposed stop sign to their driveways and the potential traffic that will block their driveways. The City has also received a letter of support of the stop sign from the owners of the Enterprise Drive Condo Association. They support the installation of the stop sign because they believe it will make turning into their condos safer, slow down traffic on Enterprise Drive, and make it safer for pedestrians to cross. City staff are requesting feedback from the committee on how to move forward.
