### 4-1 – Bulk and Dimensional Standards

The following Table of Bulk and Dimensional Standards addresses the requirements applicable to the development or use of a lot in a given district. No required yard or lot area allocated to satisfy the minimum yard or lot area requirements for one building or structure shall be used to satisfy the minimum yard or lot area requirement for another building or structure. In instances where the required transition yard width (Section 6-3) exceeds the minimum required setback width, the minimum required transition yard width shall prevail. Absolutely no intrusions of a building or structure are permitted within the required transition yard.
